

SECTION I: BOARD OF EDUCATION POLICY 1290

CAPITAL, FINANCIAL AND STRATEGIC PLANNING

The Board of Education is committed to capital, financial and strategic planning in order to guide the work of Broken Arrow Public Schools in providing a high-quality, world-class education that ensures opportunities for success for every student; achieving excellence in teaching and learning; providing an effective instructional program; strengthening productive partnerships for education; creating a positive work environment in a self-renewing organization; and in providing high-quality business services that support the educational success of students. At the beginning of each school year, the Superintendent will review the process with the Board of Education.

Broken Arrow Public Schools will routinely develop, a multi-year plan which will describe the objectives of the District and methods to reach those objectives. The plan will guide the development and improvement of new and existing processes, strategies, and initiatives. The capital, financial and strategic plan will also engage the community to improve student performance and close identified performance gaps. The plan will align the District's work and guide how resources and personnel are allocated so that all students receive a high-quality education.

The Superintendent of Schools will periodically update the Board about strategies and initiatives, and progress toward milestones identified in the plan. The Superintendent will also present any significant changes to the plan such as whether any new initiatives are needed or major changes to current programs are required.
