

SECTION VI: BUSINESS, TECHNOLOGY & OPERATIONS POLICY 6140

NO AUTHORITY OF EMPLOYEES TO CONTRACT

The Board is the only legal entity that may enter into a valid contract on behalf of the district. A school site or activity is not a legal entity with the authority of entering into a contract. Each contract must be approved by the Board and be signed by the President of the Board or superintendent or designee as authorized. Contracts signed or authorized by anyone else could result in personal liability for that person and may not be recognized by the District as valid in the event of a dispute. The District's Contract Committee review process must be followed.
